

LEO'S LAKESIDE GLAMPING

USD Promissory Note — Foreign Investor Tranche

Indicative term sheet · Copacabana, Lake Titicaca, Bolivia · Effective September 2026

This document summarizes, on an indicative and non-binding basis, the proposed terms for financing Phase 1 of Leo's Lakeside Glamping through a promissory note issued by the U.S. LLC, secured by a specific-use covenant and a pledge over identified personal property. This is not an offer of securities and does not constitute legal, tax, or investment advice. Final terms will be set out in a promissory note and security agreement prepared with independent U.S. and Bolivian counsel.

Value proposition: funding and all payments are made in U.S. dollars, USDC, or USDT, at the noteholder's election. This applies identically to the local tranche (USD 15,000 — see separate document): no conversion to bolivianos occurs at any point in the payment cycle, and the dollar return is the same regardless of where the investor is based.

Business backing

Projected EBITDA, year 5	USD 128,527 (Base) · USD 70,801 (Conservative)
Project IRR (10 years)	50.5% (Base) · 26.4% (Conservative)
EBITDA / investor obligation coverage	4.4x (Base) · 2.4x (Conservative)
Track record	Operator already runs Mia Copacabana Hostel & Coworking in the same destination, settling via Airbnb/Stripe to U.S. accounts.

Figures from the internal financial model, validated against real occupancy, staffing, and housekeeping cost data from the operating hostel (September 2026).

A. Summary of Terms — Tranche 1

Issuer	[U.S. LLC name], the entity operating Leo's Lakeside Glamping in Copacabana, Bolivia
Instrument	Promissory note with specific-use covenant, secured by a pledge over identified personal property
Principal amount	USD 60,000
Use of proceeds	Finances shared infrastructure (off-grid solar, water, trails) and the first domo pareja units of Phase 1
Security	Perfected pledge over the financed domes and their equipment. No interest in the underlying land, which remains family-owned.
Term	6 years from the opening of Phase 1 (project month 3)
Payment schedule	12 semi-annual installments of USD 7,328
First payment	Project month 9 — one full period after opening
Total received	USD 105,936 on a principal of USD 60,000 (1.77x multiple)
Yield	17.3% nominal annual (semi-annual compounding) · 16.7% effective annual IRR
Performance bonus	If average Year-3 occupancy exceeds 45%, the final principal payment increases from USD 18,000 to USD 28,000 (multiple rises to 1.93x)

Payment rail	USD, USDC, or USDT, at the noteholder's election — no bolivianos exposure at any point
---------------------	--

B. Two-tranche structure

Phase 1 is funded in two tranches, not a single raise. Both finance the same committed project — the difference is timing, and it's reflected in yield.

	Tranche 1	Tranche 2
Raises	USD 66,396 equiv.	USD 53,064 equiv.
Finances	Shared infrastructure + domo pareja units	Domo familiar units
Released	At closing	After ~2-3 months of real Tranche 1 data
Yield	17.3% nominal / 16.7% IRR	15.5% nominal / 14.7% IRR
Payment structure	12 installments + larger final payment (1.77x)	12 even installments, progressive amortization (1.57x)

Tranche 1 compensates for entering before operating data exists. Tranche 2 enters post-validation, with a more conservative return profile and more progressive capital return.

C. Payment Schedule — Tranche 1

Pmt #	Project month	Calendar month	Amount (USD)	Cumulative (USD)
1	9 (Yr 1)	April	7,328	7,328
2	15 (Yr 2)	October	7,328	14,656
3	21 (Yr 2)	April	7,328	21,984
4	27 (Yr 3)	October	7,328	29,312
5	33 (Yr 3)	April	7,328	36,640
6	39 (Yr 4)	October	7,328	43,968
7	45 (Yr 4)	April	7,328	51,296
8	51 (Yr 5)	October	7,328	58,624
9	57 (Yr 5)	April	7,328	65,952
10	63 (Yr 6)	October	7,328	73,280
11	69 (Yr 6)	April	7,328	80,608
12	75 (Yr 7)	October	25,328 *	105,936

** Payment 12 includes the final installment (USD 7,328) plus the final principal repayment (USD 18,000 base case; USD 28,000 if the performance bonus triggers). Principal is advanced in June; the exact calendar shifts with the actual disbursement date.*

D. Investor Protections

- Security: perfected pledge over the financed domes and equipment — personal property only, not the underlying land.
- Specific use verifiable via invoices and construction photos; quarterly operating report.
- Negative pledge: no new senior debt over the same collateral without the noteholder's consent.
- Concentration cap: no single investor, in either tranche, may hold more than 25% of that tranche.
- Liquidity reserve for early exits: 5% of monthly gross revenue is reserved specifically for early-exit requests, processed in order of receipt with a cap of 15% of total obligation payable per quarter.

E. U.S. Tax Treatment

Interest income, not equity: the investor receives Form 1099-INT. The LLC remains a disregarded entity for U.S. tax purposes — no Schedule K-1, no Section 1446 withholding. The issuer's Form 5472 and pro-forma 1120 filings are current as of 2026.

F. Comparative Context

Benchmark against USD-denominated alternatives (real return = nominal less a 3% U.S. inflation reference):

Alternative	Nominal return	Real return
Stablecoin lending (USDC/USDT)	6.0%	3.0%
Private credit / private mortgage debt (U.S.)	11.0%	8.0%
Real estate syndication preferred return (U.S.)	7.5%	4.5%
This note — Tranche 1	17.3% / IRR 16.7%	≈13.7%
This note — Tranche 2	15.5% / IRR 14.7%	≈11.7%

Benchmark rates are illustrative market references as of September 2026, for context only.

Prepared for discussion purposes only. This is not a binding offer and does not constitute legal, tax, or investment advice. Figures are drawn from Leo's Lakeside Glamping's internal financial model (September 2026) and are subject to execution of a definitive promissory note and security agreement prepared by qualified U.S. and Bolivian counsel.
